OMNICHANNEL SHOPPING FUNDAMENTALS

PATH TO PURCHASE TRENDS
PRE-COVID19, DURING LOCKDOWN, AND THE NEW NORMAL

INCREASE SALES WITH OMNICHANNEL SHOPPING FUNDAMENTALS

Gain access to path to purchase trends for both Brick & Mortar and Online covering three key periods in time - before COVID-19, during COVID-19, and the new normal brought on by the COVID-19 pandemic.

This total store dataset is delivered through an online cloud dashboard, allowing you to create visualizations and interact with the data to pull out key findings for your business.

Online & Offline Trendability
The only data offering in the marketplace to show how both brick & mortar and online data evolves through points in time.

Breadth and Depth of Categories
Data covering 132 food and non-food categories, and includes coverage of top U.S. brick & mortar & e-Commerce merchants.

Complete Path to Purchase Insights
Complete view of the shopper’s path to purchase from before, during and after the trip so that you can influence the shopper at every step.

Immediate understanding of the changing shopper behavior
Give your teams immediate access to the results of the online survey fielded in nationally representative Nielsen Homescan Panel among 132 CPG categories.

Modular pricing options are available, starting at $30k for a single category, $110k for department-level (food or non-food categories) or $190k for Total CPG.
